Sunovisio Admin Keep Alive Extension

This documentation will help you to install and configure Sunovisio Admin Keep Alive Extension very easily.

Version 1.1.0
12/18/2014

Introduction

How many time do you need to relogin to your admin panel? How many time is the content you are editing deleted because your session end? With Sunovisio Admin Keep Alive Extension, no more problem while working on your administration panel. Your current session will be prolonged during the whole time you are working on your administration panel and will end only when login out or closing your administration panel.

Technical specification

The extension has been developed following Magento standard. It doesn't override any Magento base components to maximize compatibility with other extensions.

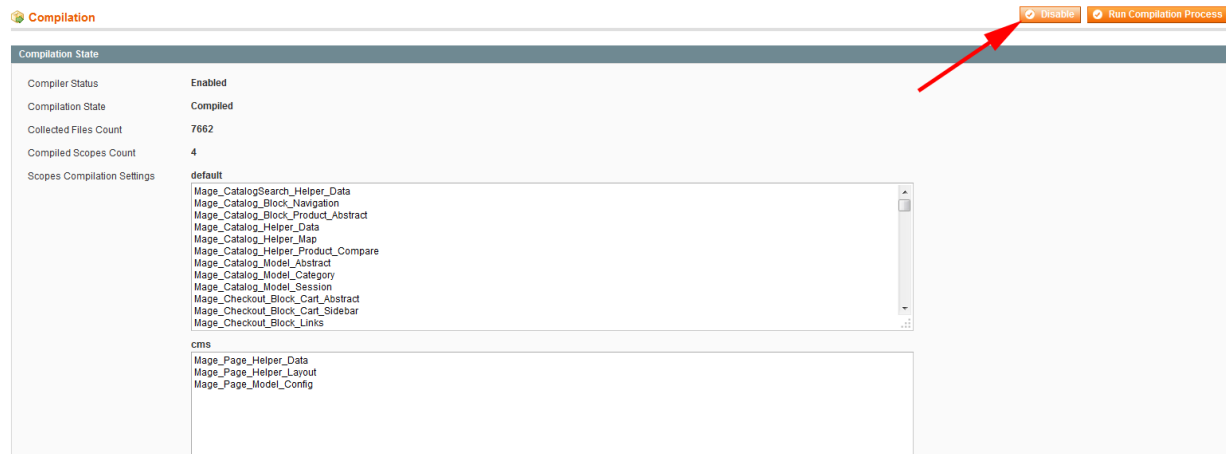

Language support

Sunovisio Admin Keep Alive has been translated in one language:

 English

Installation

To install your extension, you first have to disable the Magento compilation feature and cache. For that, go to your Magento backend, and then in System > Tools > Compilation. If it is enabled, click on the “disable” button.

The screenshot shows the 'Compilation' tool interface in the Magento admin panel. At the top right, there are two buttons: 'Disable' and 'Run Compilation Process'. A red arrow points to the 'Disable' button. Below the buttons, the 'Compilation State' is displayed as 'Compiled'. The interface also shows the 'Compiler Status' as 'Enabled', 'Collected Files Count' as 7662, and 'Compiled Scopes Count' as 4. A list of compilation settings is shown, including 'Scopes Compilation Settings' and 'cms'.

Compilation State	Enabled
Compiler Status	Enabled
Compilation State	Compiled
Collected Files Count	7662
Compiled Scopes Count	4
Scopes Compilation Settings	default
Scopes	Magento_CatalogSearch_Helper_Data Mage_Catalog_Block_Navigation Mage_Catalog_Block_Product_Abstract Mage_Catalog_Helper_Data Mage_Catalog_Helper_Map Mage_Catalog_Helper_Product_Compare Mage_Catalog_Model_Abstract Mage_Catalog_Model_Category Mage_Catalog_Model_Session Mage_Checkout_Block_Cart_Abstract Mage_Checkout_Block_Cart_Sidebar Mage_Checkout_Block_Links
cms	Mage_Page_Helper_Data Mage_Page_Helper_Layout Mage_Page_Model_Config

To disable the cache, go to System > Cache management. Click on the “Select All” link, select the “Disable” options and then click on the “Submit” button.

Cache Type	Description	Associated Tags	Actions
<input checked="" type="checkbox"/> Configuration	System(config.xml, local.xml) and modules configuration files(config.xml).	CONFIG	DISABLE ENABLED
<input checked="" type="checkbox"/> Layouts	Layout building instructions.	LAYOUT_GENERATOR_CACHE_TAG	DISABLE ENABLED
<input checked="" type="checkbox"/> Blocks HTML output	Page blocks HTML.	BLOCK_HTML	DISABLE ENABLED
<input checked="" type="checkbox"/> Translations	Translation files.	TRANSLATE	DISABLE ENABLED
<input checked="" type="checkbox"/> Collections Data	Collection data files.	COLLECTION_DATA	DISABLE ENABLED
<input checked="" type="checkbox"/> EAV types and attributes	Entity types declaration cache.	EAV	DISABLE ENABLED
<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api.xml).	CONFIG_API	DISABLE ENABLED
<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api2.xml).	CONFIG_API2	DISABLE ENABLED

Additional Cache Management

Pregenerated product images files.

Themes JavaScript and CSS files combined to one file.

You can now unzip your extension at the root of your Magento installation. After that, you need to logout of your Magento backend and login again. Check that you can access the extension configuration, and you can now re-enable the cache, and re-run the compilation process (don't just re-enable it, you have to re-compile). Here you are ! Your extension should be correctly installed.

Configuration panel

The configuration of your extension is pretty simple. The only thing to do is to enable the extension to get it working.

For that, go in System -> Configuration and select “Admin Keep Alive Extension” under Sunovisio tab.
