# Paypal Request Payment Extension

This documentation will explain you how to configure and use Paypal Request Extension

Version 2.7.0  
12/4/2013

## Introduction

Sunovisio Paypal Request Payment will allow you to send Paypal Payment Request. Didn't you feel annoyed when creating orders from administration and cannot put as payment method Paypal. This extension is done for you. Stop login in Paypal account for each orders.

## Technical specification

The extension has been developed following Magento standard. This extension supports multiwebsite feature and multilanguage feature.

## Language support

Sunovisio Paypal Request Payment has been translated in one language:

 English

## Installation

The installation process is pretty simple:

- 1) Unzip the extension you just downloaded from Sunovisio Extension Store and transfer via FTP the content of the folder in your Magento root directory.
- 2) Login into your Magento administration panel
- 3) Disable Compilation (System -> Tools -> Compilation)
- 4) Flush your cache (System -> Cache Management)
- 5) Logout from your Magento administration panel
- 6) Login again into your Magento administration panel.

Your extension should be installed correctly.

## Paypal Request Payment Method

Paypal Request Payment will create for you a new Payment Method which can be chosen when creating order from administration. You can configure it directly in System -> Configuration -> Payment Method.

Purchase Order			
Authorize.net			
Authorize.net Direct Post			
Paypal Request Payment			
Enabled	<input type="text" value="Yes"/>		[WEBSITE]
Title	<input type="text" value="Paypal Request Payment"/>		[WEBSITE]

You can setup here if you want to enable or disable the payment method and the title of the payment method.

## Configuration

Under the tab Sunovisio, you can access configuration directly via the link Paypal Request Payment.

You can see there that configuration get five tabs. We will see them one by one bellow

## Sunovisio help

This tab will give you some basic information about Sunovisio support and how to get help in case you have some issue when installing or configuring the extension.

## Parameters

This tab will allow you to setup general setting for Paypal Request Payment Extension.

- Enabled Paypal Request Payment: if this field is set to Yes, administrator will be able to send Paypal Payment Request to customers. If you enable Paypal Request Payment, you will have to configure Paypal Payment Method to let customer be directly redirected to Paypal when clicking on Pay Paypal Request.

## Paypal Payment Request Parameters

Sunovisio help		
Parameters		
Email Options		
Paypal Payment Request Parameters		
<p>This section allows you to add extra settings for Paypal Request Payment extension.</p>		
Allow to repeat Payment Request	<input type="text" value="Yes"/>	[STORE VIEW]
Display payment link in the "new order" mail	<input type="text" value="Yes"/>	[STORE VIEW]
Thank you		

This tab allow you to enable or disable two features relative to payment request :

The first one state if the extension should allow admin to send more than one payment request for an order.

The second toggle the display of the payment link in the transactional email sent on every new order.

## Customer Interface

Sometimes happens that the customer email account is not the same than the customer Paypal email address. We think about it for you already. In customer edition page, you can setup a different email address for Paypal. If empty, the extension will use the standard email address.

The screenshot shows a user interface for editing customer information. On the left is a vertical navigation menu with the following items: Customer View, Account Information, Addresses, Orders, Billing Agreements, Recurring Profiles (beta), Shopping Cart, Wishlist, Newsletter, Product Reviews, Product Tags, and Paypal Information (which is currently selected). The main content area shows the user's name as 'Loic FARGE' and a 'Back' button. Below this is a 'Paypal Information' section with a form field for 'Paypal Email'.

## Sales Order Grid Interface

The screenshot displays a grid of sales orders. At the top, there are buttons for 'Export', 'Reset Filter', and 'Sub'. An 'Actions' dropdown menu is open, listing the following options: Request Paypal Payment, Cancel, Hold, Unhold, Print Invoices, Print Packingslips, Print Credit Memos, Print All, and Print Shipping Labels. Below the menu, a row of the grid is visible, showing a total of '\$818.23' and a status of 'Paypal Request Sent'.

In the order grid, we added one massaction to send a Request Paypal Payment.

## Sales Order Detail

The screenshot shows the top of a sales order detail page. It includes the order information: 'Order # 300000001 | Nov 13, 2013 2:36:28 AM'. Below this is a toolbar with the following buttons: Back, Edit, Cancel, Send Email, Hold, Invoice, Ship, Reorder, and Paypal Request Payment.

In the sales order detail interface, we added one button which allow you to send or Paypal Request.

As well, all change in Paypal Request are added to status history.

## Support
