Documentation Order Service Extension

This document will help you to setup and configure Order Service Extension from Sunovisio.

Version 1.0.0
11/16/2012

Introduction

Sunovisio Order Service Extension allows you to input a custom product name when creating an order from administration. Very useful when you are selling some services and need to create an order directly from administration.

Configuration

In System -> Configuration, you will find a tab called Order Service Extension. There you will be able to configure your extension.

▲ List of product id which have product name editable in order (comma separated)

In the first tab, you will find different information about Sunovisio support. The second one, called “Parameters” will allow you to enable or disable the extension and to setup the list of products which are editable when creating a new order.

Order creation

Items Ordered Add Products

| Product | Price | Qty | Subtotal | Discount | Row Subtotal | Action |
|---|----------|-----|--------------------|--|--------------|----------------------|
| test <input type="text" value="test"/> Configure SKU: test <input type="checkbox"/> Custom Price* | \$100.00 | 1 | \$100.00 | \$0.00 <input checked="" type="checkbox"/> Apply | \$100.00 | <input type="text"/> |
| Total 1 product(s) | | | Subtotal: \$100.00 | \$0.00 | \$100.00 | |

* - Enter custom price excluding tax Update Items and Qty's

When selecting a product which has editable name, you will see that the name is replaced by a textfield where you can edit the ordered item name. After changing the name, click on “Update Items and Qty’s” to save the change.

Note that this update will only interact with this order. In no way, it will change the real product name.
