Holidays Extension Documentation

This guide will allow you to use Holidays Extension very simply

Version 1.1.0
7/19/2012

Introduction

Sunovisio Holidays Extension allows you to put your website offline during your holidays for example. This extension offers you as well the possibility to plan your holidays to let your shop manage automatically the online/offline feature.

Installation

To install the extension, upload all files into your server root directory.

To put your webshop in holidays, just go on System -> Config and under the tab Sunovisio, select Holidays Extension. You will see two tabs.

Visit our website to follow our previous integration and get a great idea of our abilities <http://www.sunovisio.com>

Parameters

Enable holidays extension	<input type="text" value="Yes"/>	[STORE VIEW]
I am on holidays	<input type="text" value="No"/>	[STORE VIEW]

The first one display some general support information offered by Sunovisio. The second one will allow you to enable the extension and to put your webshop offline on-demand.

Put your webshop offline on-demand

To put your webshop offline on-demand (so for example now), you will need in configuration to enable the extension and to put the field "I am on holidays" to Yes. Automatically, your webshop will be put offline.

Plan your holidays

A second mode allows you to plan your holidays. As soon as the current date will be during your holidays, the webshop will be put offline automatically. For that, on the top menu, go on Sunovisio and Holidays. A grid will appear.

Item Manager Add Item
